## PROJECTS

### **ParkItUp - Parking Booking App** using **MERN** [ [View Live](#) | [View Codes](#) ]

**WHY?** = I built this to gain hands-on *experience* in *developing a real-world application*. Primary objective was to understand *end-to-end design including frontend-backend communication, REST API dev and efficient handling using MongoDB*.

### **ResuMeUp - Resume Builder App** using **MERN** [ [View Live](#) | [View Codes](#) ]

**WHY?** = The idea for this project originated when I came across *several online resume-building platforms*. I realized that most of these platforms *were paid and not easily accessible to students or individual with limited budgets*.

### **PopUp - E-Commerce App** using **MERN** [ [View Live](#) | [View Codes](#) ]

**WHY?** = The primary goal was to *understand core concepts* such as *authentication flows, REST API, database management*. It also helped me explore how *scalable architectures* are *designed in modern online shopping platform*
